

*“The renovation of the floor can be completed without any teardown or rebuild, by the use of modular carpet tiles and our patented Lift System”*

Occupied Renovations® focus is on tenant and building renovation projects that require minimal disruption to the daily business of its clients. If your workspace has been designed with modular system furniture, then the renovation of the floor can be completed without any teardown or rebuild, by the use of modular carpet tiles and our patented Lift System. Our patented lift system technologies, coupled with our experienced team, allow us to complete office floor covering replacement projects faster and more cost-effectively than other flooring contractors.

We are an independent source offering products from all of the leading flooring mills and manufacturers, so vendor bias or pricing restrictions do not apply when it comes to product selection. We listen to the needs of our clients; we specify the correct product, we supply materials at a competitive price, provide the best installation and project management possible.
